DSI Security Services Company Profile

Initially DSI operated solely in Alabama in 1969. However as our reputation for quality service spread so did our base of operations. DSI has an impressive growth history, which is punctuated with examples of our versatility, flexibility, and sound management. We now have hundreds of officers, all of whom have been carefully selected and highly trained. A.B. Clark, the company's founder realized the void for dependable, competent security service. A. B. Clark began with a belief that DSI would do more than "just meet the need."

Today, DSI is still family owned and operated by Alan B. Clark, AB's son. Currently, 3 of Alan's children are employed in various capacities throughout the company, continuing the legacy that began over 40 years ago. Our reputation in the Southeast is based upon strong performance, management response, and solid professionalism. These qualities are well reflected by each of our security specialists and officers. There are other less expensive services in the market place, but DSI, dollar-for-dollar provides a higher level of service. We are pioneers in premium pay rates and in billing our clients based on a declared operating "factor." This philosophy has proven itself, as reflected in the quality of our clientele. Many of our clients have experimented with other less expensive or less efficient security suppliers prior to finally selecting DSI. Many of our clients have experimented with national companies, but have come home to the more personal way of doing business. With more than 3,000 Security Personnel spread throughout the United States, DSI has operated under its mantra of DWYSYWD (Do what You Say You Will Do). These simple 7 words have been a major catalyst in this growing, reputable service offered to each of our Customers, no matter the size or importance.

DSI Security has developed comprehensive experience and expertise in all aspects of facility security management. With 25 Offices throughout the country, and time-tested, standardized recruitment, qualification and training programs, DSI Security has the capability to provide qualified and trained Officers throughout many locations within the United States. Our distinctive approach integrates security measures into the client's environment, so that services maintain the look and feel of the client organization, while ensuring operational integrity.

For over 40 years, we have provided service for a wide range of customers. Over the years, DSI has secured Federal contracts, State contracts, Municipal contracts, as well as many contracts in the private sectors of business.
